

# TENNER FOR A TONNE APPEAL

*Diagram created by Paul Reynolds*

When the platform walls for the Corwen Central island platform are complete, they will have created a 160 metre long area to be filled with spoil brought in and compacted. It is estimated that 1,000 tonnes of material will be required to create the platform area at a cost of £10 a tonne, as represented by the layers of red balls in the above diagram. The financing of this aspect of the station development is dependent upon voluntary donations.

Can you spare a Tenner to support the Corwen Central project? If so, please make a donation of £10 to the 'Tenner for a Tonne' Appeal : Llangollen Railway Trust Ltd, Corwen Central Railway Development, c/o Mr Paul Bailey, Dolwen, Bryn Eglwys, Corwen, LL21 9LY.

---

**Yes, I want to support the 'Tenner for a Tonne' Appeal and enclosed my cheque for £10 payable to LRT/CCRD.**

Name.....Address.....

.....Post Code.....

Email address for acknowledgement of your donation.....

The names of all donors will go into a raffle with the prize winners receiving one of five tickets to travel on a planned Corwen Central Express, a Double-headed, Eight Coach Special Train on a date after the project is completed.
